1. The first of these is the  
fact that the system is not  
self-sufficient. It is  
dependent on the outside world  
for its raw materials and  
for its markets. This is a  
serious disadvantage, and it  
is one of the reasons why  
the system is not as popular  
as it might be.

1. The first part of the report discusses the general situation of the company and the results of the audit. It also mentions the scope of the audit and the methods used.

2. The second part of the report discusses the specific findings of the audit. It mentions the areas where the company is doing well and the areas where there are problems. It also mentions the reasons for the problems and the recommendations for improvement.

3. The third part of the report discusses the conclusions of the audit. It mentions the overall opinion of the auditor and the reasons for that opinion. It also mentions the areas where the company needs to improve and the recommendations for improvement.

4. The fourth part of the report discusses the recommendations of the auditor. It mentions the specific actions that the company should take to improve its performance. It also mentions the timeline for these actions and the responsible parties.

5. The fifth part of the report discusses the follow-up of the audit. It mentions the date of the next audit and the areas that will be audited. It also mentions the responsibilities of the company and the auditor for the follow-up.
